

DRIVE APPROACH REQUIREMENTS

NOTICE

Attention all Builders and Contractors:

The following requirements must be complied with on all Single Family Dwelling drive approaches:

- 35' from top of apron to top of apron or half the frontage measurement, whichever is less; exceptions may apply; call city office (Herriman City Standards Section 4 4.01.13.14)
- 6" of compacted road base, 6" of concrete
- #4 gage steel dowels 2' on center drilled into the curbside
- Sidewalk side full depth (6") expansion
- 6 ½ bag city mix with air entraining
- Must be inspected by City inspector **prior to pour** (call for a drive approach inspection – we will allow a time request)
- Submit concrete ticket to inspector or city office
