## Council Corner

### What Is Herriman's Long-Term Plan?

In 2017, Herriman City passed an amended general plan based on property annexation and a rapid growth rate. A general plan is a broad planning guideline to a city's or county's future development goals. It provides policy statements to achieve those development goals. Due to various reasons, residents filed a referendum that expressed concerns about the plan's drafting process and development plans for the northwest section of the City. In early 2018, Herriman City restarted efforts to work on a new version of the general plan amendment that offered a complete process to include both residents and developers in our attempts to carry out the City's mission and vision. In November 2018, the City selected a general plan consultant, and the process began. The City increased the opportunity for input and involvement from the community by hosting open houses, neighborhood meetings, two citywide surveys, and placing information booths at each of our City events.

The delay in restarting our work on the general plan allowed for the completion of the Transportation and Parks Master Plans so that each of those could be incorporated into this new plan, providing the consistency that supports our vision of the future. The public outreach provided a variety of ideas articulated in 25,000 suggestions from over 3,000 community members.

**Recreation**—As we know, Herriman is a very active community, so it is no surprise that our residents' top priority is outdoor recreation. Recreation applies not only to actual physical activity but also to the character of the City and the potential for economic development opportunities. Our community is highly interested in adventure, recreation, and activity venues. Residents desire to maintain a high volume of our natural open space while creating amenities and recruiting business that supports this concept.

**Transportation**—Transportation and connectivity also rank very highly. The need for multiple routes throughout the City that network to and from regional destinations was a common suggestion among our residents. But roads aren't the only

#### The final steps

##### ■ Aug-Sep

- Work sessions on general plan draft components (with Technical Advisory Committee, Planning Commission, and City Council)

##### ■ Sep-Oct

- Community input on draft general plan

##### ■ Oct-Nov

- Review and recommended final draft

##### ■ Nov-Dec

- City Council review and adoption of the final general plan

## We Are Herriman: A Community Pride Campaign

Each month, we will recognize individuals for their contributions to our community culture, sharing the good work that they do. As we continue to evolve and establish our city brand, we are defined by those that make up this community. We Are Herriman.

Nominations can be made at [herriman.org/we-are-herriman/](http://herriman.org/we-are-herriman/)

### Youth Volunteers

A group of youth that originally volunteered at the Herriman Trails Cleanup Day was found going the extra mile the next week. This group took it upon themselves to walk along Midas Creek Trail picking up trash and debris. Chad Lanham, a City employee, crossed paths with the youth and gave them his contact information in order to coordinate the removal of their gatherings.

The group left a lasting impression on Chad when he received a text from one of the boys that night asking where they could help out next. Austin Henderson, Alexander Hill, Ann Seo, and Benjamin Hill (pictured left to right) saw that more needed to be done and wanted to continue to give back to their community. One of them stated, "due to all the changes with COVID-19 we want to be outside doing something." Additional cleanups were scheduled with the group. To date, they have completed seven trail cleanup efforts with an additional three on the calendar. With each job, they are recruiting more youth to get involved.

### Chad Lanham

Chad is an outstanding Herriman City employee. As a stormwater inspector, he ensures that Herriman residents stay safe and have clean water by holding developers to high standards and keeping the waterways maintained. He is enthusiastic about the Herriman community and serving others.

Upon seeing a group picking up trash in a ravine, he was quick to take care of the collected debris, bring water to the volunteers, and establish a connection for future cleanups. Always courteous and dedicated, Chad makes Herriman a better place.

This month's "We Are Herriman" recipients are the perfect examples of what the Herriman culture encompasses. Each wanted to ensure that the other was recognized for their contribution to Herriman, not realizing that the other side was doing the same. Anonymous nominations can sometimes tell both sides of the story. Together, We Are Herriman!

WE ARE

HERRIMAN

## CENSUS TAKERS IN YOUR NEIGHBORHOOD

*If you have not yet responded to the 2020 census, census takers will soon be visiting your home.*

Following COVID-19 safety procedures, including wearing a mask, census takers will help you and everyone in your home be counted.

If you aren't home, the census taker will leave a notice of their visit with information about how to respond online, by phone, or by mail.

If you respond online at [2020census.gov](http://2020census.gov), a census taker is less likely to visit your home to collect your response.

HERRIMAN CITY  
SHOP AROUND

**AUG 1 - SEPT 15**

Herriman residents should have received a set of coupons in the mail at the beginning of August. Use the coupons at participating Herriman businesses by September 15th for a special discount on your purchase!

See a list of participating businesses on [Herriman.org](http://Herriman.org)

## Juniper Canyon Recreation Area Open House

The neighborhood meeting open house for the proposed 72-acre Juniper Canyon recreation area is being held online.

Visit [bit.ly/junipercanyonrecrea](https://bit.ly/junipercanyonrecrea) to see plans and submit official comments. **Comments must be submitted by Monday, August 17th.**

*continued from cover*

way we want to travel. 41% of respondents requested connectivity that provides the ability to walk or bike to activities, community spaces, and local amenities.

**Economy**—In examining the economic development arena of the City, residents want to see shopping and entertainment as well as sit-down food establishments. Herriman has been working with brokers and landowners to build interest in Herriman's available land that could support these types of businesses. In the past year, we have added a new grocery store, several eateries, announced the location of an auto mall and a themed restaurant, and have a list of exciting opportunities currently being pursued.

Throughout this process, we have examined our strengths, challenges, housing types, land use, transportation, and sustainability. The steering committee, our community, the Planning Commission, and the City Council have been instrumental in providing key information that will make this a viable plan throughout the coming years. All are working to ensure the long-term ability to sustain our level of service and meet the needs of our community.

The community's feedback has been submitted and presented to both the Planning Commission and the City Council. The consultant will now draft the amended general plan and schedule time to work closely with the Planning Commission and the City Council to thoroughly examine the provided input and how it aligns with the larger plan regarding zoning.

The timeline for finalizing the general plan should begin to move more quickly now that the research portion is completed. The Planning Commission should complete its review by September. Once the Commission makes its recommendations, it will go to the City Council, who will hold a public hearing for additional resident comments.

The long process is based on the importance of investing additional time into listening to our community, gathering public input, and reaching out to the various neighborhoods within the City to build a better understanding of their needs as we plan for Herriman's future. We look forward to having an approved, updated general plan by the beginning of the year 2021.

To monitor the progress of the Herriman City General Plan or to provide comments, visit [www.herriman.org/general-plan](http://www.herriman.org/general-plan).

**HERRIMAN**  
**PERSONAL PROTECTIVE EQUIPMENT Appreciation Baskets**

Using funds obtained from the CARES Act, the Herriman City Economic Development Department created appreciation baskets with PPE and have been delivering them to more than 100 Herriman brick and mortar businesses.

The baskets include several items such as disinfectant wipes, hand sanitizer, gloves, masks, hand soap, and a touchless thermometer.

**Flying Blood Supply**

When one of the University of Utah's (U of U) AirMed helicopters take off on an emergency call, there is now a small cooler onboard containing their latest life-saving means—blood.

The ability to transport blood to a trauma scene allows AirMed to begin a blood transfusion prior to delivering the patient to the U of U's Level 1 Trauma Center. This pre-hospital care is the result of a collaboration between the U of U's Medical Transport Services and ARUP Blood Services, which is the sole blood supplier for University of Utah hospitals and clinics.

"We are thrilled to bring this treatment option to these trauma patients in order to give them the best chance of survival and recovery," said Ryan Metcalf, M.D., medical director of ARUP Blood Services.

ARUP Blood Services will regularly transport the blood between its blood bank and AirMed's four Utah bases, located in Layton, Park City, Nephi, and Tooele, to ensure blood supplies are stocked and replenished.

## Recently Approved Ordinances

To view the ordinances in full detail, please visit <https://www.herriman.org/public-notice/>

### ORDINANCE 2020-24

An ordinance adding Title 7, Chapter 8, Section 13 Midas Creek Pump Track rules and regulations

### ORDINANCE 2020-25

An ordinance authorizing a Zoning Map Amendment to rezone 1.13 acres of property located at 12609 South 6000 West from A-1 to A-.50.

### ORDINANCE 2020-26

An ordinance making an amendment to the Administrative Code regarding the start time of City Council meetings.

## Thank You for Serving

Herriman City's Veterans and Military Advisory Committee helped welcome home Denis Clayson after a seven-month deployment with the United States Air Force. Thank you for your service to our beloved country.

The committee and other resident volunteers coordinate to place flags and ribbons at the homes of arriving soldiers. The committee offers different ways to recognize members of the military, both past and present. Visit [bit.ly/herrimantveterans](http://bit.ly/herrimantveterans) to find ways to honor military members you love.

## Protect Your Home From Wildfire

One of the best ways to give your home a chance of surviving a wildfire is by creating and maintaining defensible space. This creates a buffer between your home and the grass, trees, shrubs, or wildland area nearby. This space slows or stops the spread of fire, protecting your property and the firefighters defending your home.

### Zone 1 — 0-30 feet from your house

- 🔥 Clean out debris from under decks
- 🔥 Move flammable materials like stacks of firewood or propane tanks away from the structure
- 🔥 Remove pine needles, leaves, and other debris from rooftops and rain gutters
- 🔥 Trim weeds or other flammable vegetation to prevent hanging over the structure

### Zone 2 — 30-100 feet from your house

- 🔥 Remove dry, dead, and dying grass, shrubs, and trees
- 🔥 Reduce the density of vegetation by spacing plants apart
- 🔥 Remove 'ladder' fuels that could carry fire from the ground into the treetops

**RADON**

Interested in purchasing a Radon test kit?  
Stop by City Hall to purchase one for \$6.00 while supplies last.

## Are you over-watering your lawn?

Consider installing an automatic rain shutoff device on your sprinkler system

Install drip irrigation systems for trees, shrubs, and flowers

Avoid watering your landscape during the hottest hours of the day (10 am until 6 pm) to minimize evaporation

Adjust your lawn mower to a higher setting. Longer grass shades root systems and holds soil moisture better

Avoid watering your lawn on windy days

Water your lawn only when it needs it. If you leave footprints on the grass, it is usually time to water

SlowTheFlow.org

Herriman City urges residents to conserve water, especially during this hot summer that has had prolonged periods without rain.

# Pedal PALOOZA

Presented by  
**SCHEELS**

Saturday, August 15th — 9:00-11:00 a.m.
