

David Watts

Herriman is the community that it is today because of the people who live here. From the families that have lived here for generations to the young families that have just moved in, we live in Herriman because of the community that we have all found here. I believe that it is the responsibility of our local elected leaders to protect our community and ensure that generations to come can raise their children here as well.

In order to protect the Herriman Feel, our leaders must be transparent and accountable in their actions. We must practice fiscal discipline and responsibility, making the tough decisions now and not passing our debts on to our children. We must encourage commercial development in our community to ensure the future fiscal wellbeing of Herriman. Residential and commercial development must be a process that involves our residents, and not a one sided free-for-all that is so focused on profit that we forget about doing what is "right", and instead do what is "easy".

We must provide our families with safe places to spend time together. New parks, trails and open space must continue to be a priority for the City. We must also be willing to continue to maintain the safety of our current parks so that children of all ages will have a safe place to learn and grow for years to come.

I will continue to protect our community as a member of the City Council, just as I have strived to do for the last year and a half as a resident. I ask for your vote. Together we can continue to build our community into the place that we are all proud to call Home.
