FOR IMMEDIATE RELEASE: June 17, 2019

Motorcycle Crash at 12800 S. Mountain View Corridor

HERRIMAN, Utah

On Monday, June 17, 2019 at approximately 7:20am, officers from the Herriman Police Department responded to reports of a motorcycle crash on Mountain View Corridor at 12800 South. Witnesses indicated a black motorcycle traveling southbound on Mountain View was passing vehicles in the shoulder at a high rate of speed beginning near 12300 South. The motorcycle crossed through the intersection of 12600 South in the shoulder and proceeded around another vehicle at 12800 South, where it impacted the rear end of a gray dump truck pulling a pup trailer.

The motorcycle operator, a 17-year-old male, was airlifted to an area hospital in extremely critical condition with severe head trauma. He was not wearing a helmet. At this time, Mountain View Corridor (southbound) is closed from 12600 South to 13400 South as our major crash investigators from HPD and South Jordan PD work through the reconstruction. Significant updates on the motorcycle operator's condition will be provided as we receive them.

REQUEST FOR INFORMATION: We have been unable to identify the dump truck involved in this crash. The impact to the rear of the pup trailer was not likely significant enough to cause the driver of the truck to be aware of what had happened. We are asking for anyone who was operating a dump truck pulling a pup trailer southbound on Mountain View Corridor near 12600 South between 7:00 and 7:30 this morning to please check the rear end of their pup trailer for damage and reach out to us at 801-840-4000. Also, anyone driving in the area this morning who may have witnessed this crash or the circumstances leading up to it is also asked to contact Herriman PD.
