

General Plan Amendment

Application for a general plan amendment for a specified piece of property must be submitted 30 days prior to the Planning Commission meeting in order to be placed on the agenda for that meeting.

PURPOSE AND OBJECTIVE OF THE GENERAL PLAN

The general plan is a compass or blueprint for the community. It indicates the vision that the community has chosen for its future and the course it must follow to achieve the vision. It is the official statement for Herriman that establishes and articulates the policies and goals for future physical, social and economic development. A successful general plan should be amenable and must be based upon thorough and accurate research. The analysis of the research data, citizen participation and the various policy recommendations developed during the general plan preparation are synthesized and presented as a unified document. It must be understandable and remain a policy statement useful as a guide to officials of the community.
