January
2022

Council Corner

Welcoming Two New Members to the Council

As we welcome in a new year, we also welcome two new members to the City Council. In the November 2021 election, Lorin Palmer (Mayor) and Teddy Hodges (District 2) were elected to their new positions and Sherrie Ohrn (District 3) was re-elected. Each will serve for a four-year term.

On January 3rd, the three were sworn in and took their oath of office in front of many family members, friends, and residents.

Mayor Lorin Palmer

A native of Price, Utah, Lorin has lived in Herriman for eight years with his wife, Christi, and their family. Lorin has spent most of his career managing industrial retail businesses before moving over to sales and eventually becoming the western U.S. sales manager for a hydraulic hose manufacturer. Four years ago, Lorin left that career to become a stay-at-home dad while also working part-time overseeing recreation soccer for the Utah Youth Soccer Association (UYSA).

Five years ago, Lorin became involved in the community lobbying for responsible, balanced growth in the area. In 2018, he was appointed to the Planning Commission and loved serving in that role until the time he was elected Mayor.

Lorin ran on a platform of increasing economic development, improving outreach to residents, and working with the county and state to improve city infrastructure. Lorin looks forward to serving this community and working with as many residents as possible.

@HerrimanCity   

Councilmember Teddy Hodges

Teddy moved to Utah from Wyoming 14 years ago and decided to make Herriman his home to raise his family, which includes his beautiful wife Amy and two sweet girls, Charlotte and Josephine. Teddy is an entrepreneur by heart, loves a new challenge, and is excited for the work ahead over the next four years. He sees the growth coming and wants to help bring it in responsibly while looking at how it can best serve the community. The decisions made over the next four years will be critical for the next 20 years.

Teddy is looking forward to serving this wonderful community in all he does, and he is thankful for the trust of the citizens and the community. He knows he was elected as District 2 Councilman but sees his position as a city representative to represent the whole city. Teddy encourages residents to become more involved.

SNOWMAN BUILDING COMPETITION

HERRIMAN Arts COUNCIL

January 3rd - February 13th

Chase those winter blues away by participating in the Herriman Arts Council's snowman building competition.

Prizes will be awarded to the "Best in Snow" winner of each of the following categories:

- Individual builder age 12 and under
- Individual builder age 13 and over
- Family (up to five builders)

Visit Herriman.org/arts-council to learn more.

Where can I put my snow?

Snow must remain on your property. It cannot be placed in the street.

This diagram demonstrates the appropriate way to remove snow from your driveway.

Herriman City's snowfighters thank you for your assistance!

RADON

January is Radon Awareness month. Radon is a dangerous carcinogen, prevalent in Utah, that can lead to health concerns. Cities located near mountains (including Herriman) tend to have areas of high concentration of radon. Radon is not something that you can see, smell, nor feel. The only way to detect its presence is to test for it.

Test kits are available at the City Hall for \$6.00.

BASKET DASH

April 9th, 2022 - 10 AM

\$5 Kids Fun Run
Herriman.org/basket-dash

Participants will receive a t-shirt and a bag of Easter eggs at the finish line.

Shop Local Business Spotlight The Reef Tanning & Spa

“**T**he Reef Tanning & Spa is a small, family-owned business here in Herriman at 13226 S. 5600 West. Our focus from the beginning has always been on our guest service and striving to get the best possible results for them. With that, we knew we needed something for everyone, a place where people who have never visited a tanning salon would feel comfortable.

So, we opened a different kind of salon, focusing on overall wellness. We wanted to provide education on the benefits of all we do, not just on tanning but by introducing red light therapy, infrared therapy, hydration therapy, and salt therapy into people’s daily routine. The feedback from our wonderful guests has been greater than we could have ever imagined. We are thrilled beyond belief at the results we have heard and seen!

We have now expanded with the addition of The Coral Reef Salon Studios, where salon suites are available for lease to offer a variety of individual spa services provided by other amazing, licensed professionals within our four walls.

We are so thankful to Herriman City and for the entire Herriman community. There truly is something for everyone here in Herriman and at The Reef Tanning & Spa.

Productive Water Sources

Herriman’s water sources are as unique as Herriman itself. Currently we have seven different water sources which include five wells and one spring. Along with many other cities within Salt Lake County, Herriman also purchases water from Jordan Valley Water Conservancy District to help supplement our sources during periods of high demand. The amount of water produced by these sources may surprise you.

This year we reached our peak day demand on June 15th, where on that one day alone Herriman withdrew **20,394,875 gallons** to supply enough water to meet customers’ demands. In total, **2,963,222,578 gallons** of water was collectively taken from our sources in 2021. Although this seems

high, it’s about a **2% reduction** from last year’s total amount of water produced, which was a whopping 3,043,506,797 gallons.

We are fortunate to have water sources as productive and reliable as we do, but without replenishment, they will continue to shrink. As the current drought is predicted to persist into the foreseeable future, it is important to keep these numbers in mind while going about day-to-day tasks.

Visit “Conserve Water Utah” online to find creative ways you can save water in your home as well as programs you can take advantage of to help make conserving water both accessible and affordable.

***SUBJECT TO CHANGE**

Legislative Priorities for 2022

Herriman City is often noted as one of the most rapidly changing cities in the state. This trend continues now in 2022. This year, in addition to welcoming a new City Council, it is also annexing over 900 acres on the northwestern border. As the City navigates through these changes and works to strengthen and facilitate a prosperous community, they remain committed to supporting legislation that aligns with their principles. The focus is placed on building a strong economic base, providing adequate infrastructure, and improving safety and quality of life through the parks, trails, and recreation amenities, as well as the public safety department.

This year's priorities center around the following areas of focus:

Infrastructure

- Transportation:
 - U-111 realignment
 - Widening of 11800 S. from 6000 W. to U-111
 - Jurisdictional transfer of Herriman Boulevard
 - Herriman Main St. improvements from Dansie Blvd to the proposed Salt Lake County trailhead
 - Juniper Crest east connection at Mountain View Corridor
 - Tools and resources to address local transportation needs
 - 7300 W. new construction from Main Street to the northern city boundary
- Broadband:
 - Funding opportunities for broadband utility needs, which total \$40M
- Water and Secondary Water:
 - Old Town water line replacement
 - Funding for alternative water resources (feasibility study/cost analysis)
 - Funding for stormwater to develop SCADA master plan to automate regional flood control facilities to mitigate flood potential

Parks, Trails, and Recreation

- Continued support for trail connectivity throughout the valley
- Salt Lake County trailhead project
- Continued support for ACUB and REPI funds to maintain a buffer around Camp Williams

Housing and Building

- See capital improvement funding for infrastructure improvements to support additional moderate-income housing
- Maintain local government control over permitting, inspections, design standards, and development agreements
- Regulation and compliance measures for critical infrastructure materials

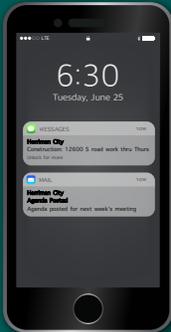

Public Safety

- Use of Force
 - Support transparency but oppose citizen review boards being granted the power to determine outcomes or discipline
- Training
 - Provide financial assistance for any new training mandates
- Policy
 - Support cities' ability to make choices on policing strategies that are best suited for them
 - Privacy regarding drones, cell phones and body camera rules and regulations
- Mental Health
 - Support pushing for measures to promote, fund, and address the many long-term mental health challenges of public safety members

Happy Cooking!

Each year from 2017 to 2019, fire departments in the United States responded to an estimated average of 187,500 cooking fires in residential buildings. Cooking is, by far, the leading cause of all residential building fires and injuries, contributing an estimated 165 deaths, 3,325 injuries, and \$444 million in property loss.

Here are some quick tips on ways to prevent a fire in your home:

- Grease buildup is flammable
- Never leave hot stove unattended
- Turn off heat source
- Wipe up spills
- Cover with a metal lid
- Keep cooking equipment clean and in good repair
- Never pour water, baking powder or flour on a grease fire
- Turn pot handles toward back of stove
- Remove combustibles from cooking area
- Always let grease cool before disposing of it in the garbage
- Don't use metal in the microwave
- Install a smoke detector near, but not in the kitchen
- Have a fire extinguisher nearby and know how to use it
- Wear short, close fitting or tightly rolled sleeves
