Council Corner
A Note of Gratitude

In just a few short weeks, many of us will gather around the table with those we hold dear, surrounded by a traditional feast fit for a king. We will embrace our differences, celebrate our diverse heritage, and come together in gratitude for the many blessings bestowed upon us. We will share laughter and stories, all while creating new memories along the way.

Herriman City has much to be grateful for. Our economy is growing, unemployment rates are low, property values are strong, and quality of life remains a focal point. Our recreational amenities continue to flourish as we build and improve parks, plan and construct trail extensions, and host various community events that bring us all together, generating the pulse of our City. Our community is the heart and soul of Herriman.

We are also thankful to our City employees for the wonderful job they do to meet the needs of our community through prompt, responsive service. They work hard to assist us in fulfilling our vision of creating a vibrant, inclusive, and sustainable City. They take pride in the community and embrace the culture we have created. That culture has led us to receiving accolades from The Salt Lake Tribune as one of 2019’s Top Places to Work.

As members of the City Council, along with our community and our staff, we have created a strong, active, and caring community. We maintain a focus on sustainability and are working hard to ensure a vital future for economic development and responsible growth. Though we will continue to face challenges ahead, we can work together to build a viable community that provides great services, safe neighborhoods, and thoughtful planning.

So as we carve the turkey and serve up heaping spoonfuls of potatoes, let us take time for gratitude, to appreciate our family, friends, and neighbors, knowing that regardless of our differences, we are still one community. Together, We Are Herriman. Have a happy Thanksgiving.
We’re Family Focused Eye Care and we’ve been providing quality eye exams, glasses, and contact lenses in Herriman since we opened our doors in 2009. We believe in providing the highest quality of service and products for your entire family, while working to maintain a hometown, comfortable feel. We feel you deserve to have the best vision health available to you. Over the last 10 years, we have closely watched our families, community, and business grow, while also watching impressive advancements in vision technology. The technology advances in lenses for glasses are better than they have ever been in the past and are completely customizable to you and your needs by our knowledgeable staff.

Our office stays current in studying new contact lens designs so that our patients can experience them the moment they become available. To better serve each patient, we have impressive machines and scans that give us the most thorough view of your eye possible, which ensures better management of the progression of any eye health issues.

We are currently one of the few providers in the state treating dry eye syndrome with a LipiFlow machine. We are excited to watch as this treatment changes lives in our dry Utah climate.

Fall Leaf Collection Program
The annual Fall Leaf Collection Program will run through November 30th. Residents will be able to pick up and drop off leaf bags at the following locations (limit 10 bags per household).

Pickup Locations:  
- Herriman City Hall  
  5355 W. Herriman Main St.
- Butterfield Park  
  6212 W. 14200 S.

Drop-off Location:  
- Herriman Fire Station  
  5928 W. 13100 S.

Residents can also use and drop off their own purchased leaf/lawn bags, as long as they only contain leaves.

Family Focused Eye Care started with one family’s dream to own a full-scale, private practice optometry clinic in a family-oriented community. Our goal has always been to provide the best, most educational eye exams, alongside the most up-to-date glasses and contact lenses out there. We wanted to be an asset to the community and raise our family in the same area as the people we serve. We would like the vision of our founding family to extend to your family. If you or your family has not yet had a personalized experience with us, we invite you to come be a part of our family to experience vision care that goes beyond 20/20. Our dedicated service team stands ready with quality products and services to match each of your individual needs. Come visit us at 5532 W Herriman Main Street, Suite 120. You can reach us online at visionbeyond2020.com or by phone at (801)302-3080.

Water Winterization
The Herriman City Municipal Water Department has a few recommendations to help prepare you for the winter. Frozen or burst water pipes can create an unpleasant emergency, not to mention waste a lot of water and money. Take a few precautions to prevent frozen pipes:

- Drain garden hoses and disconnect from hose bibs to prevent faucets from freezing
- Shut off the main valve to your sprinklers (secondary and culinary)
- Turn your sprinkler clock to the off position
- Drain all water out of your sprinkler lines. Some systems can do this with drain valves, but in most cases you’ll need to blow the water out with an air compressor. Many landscape companies offer this service
- Take extra precautions to prevent damage to your backflow preventer, as the first frost damages many each year. It is common to remove your reduced pressure backflow preventer and place it in your garage to avoid damage

Please note that even if you have taken precautions, once in a while, pipes still freeze. It is recommended that you call a plumber if you are not experienced with home repair work. There is a significant risk of injury or property damage from inexperienced efforts to thaw pipes.

Recently Approved Ordinances
ORDINANCE 2019-30
An ordinance authorizing a text change to the Land Development Code regarding fencing materials.
ORDINANCE 2019-31
An ordinance authorizing a text change to the Land Development Code regarding used car sales in the Auto Mall Special District.

DIY Deck Inspections

There have been a lot of cases over the years of decks collapsing, many sadly ending in fatalities. Herriman Building Inspectors pay close attention to decks when they’re built, making sure it meets all safe construction requirements. But over time, decks need maintenance. Here are some things to check to see if your deck is safe.

- **Check the connections.** Depending on your deck’s size, there could be various combinations of metal hardware that hold your deck together. That includes nails, screws, bolts, brackets, and more. Check that all are in place and securely fastened.

- **Check for corrosion.** If there are any signs of rust or deterioration to metal parts, replace them with equally strong parts with material rated for outdoor use.

- **Check for rotted wood.** Wood decays and rots when exposed to all sorts of weather. If you are concerned your wood might be rotting, poke the wood with a nail or screwdriver. If it’s soft, it needs to be replaced.

- **Check for cracks.** Wood will crack over time, but large or excessive cracks can be dangerous. If the crack runs all the way through a board or post and seems to be pulling apart, it needs to be replaced.

We Are Herriman:
A Community Pride Campaign

Each month, we will recognize individuals for their contributions to our community culture, sharing the good work that they do. As we continue to evolve and establish our City brand, we are defined by those that make up this community. WE ARE HERRIMAN.

Avery Evans

This year we had another great DARE vehicle design competition. This is a favorite aspect of the DARE program because the kids really put a lot of effort towards their best design. As the designs are collected from the kids, they like to point out the little details in hopes that theirs might be selected. Of course, DARE Officer Jake Cutright does not do the selecting to try to “protect the innocent.” However, as over 1,000 designs were collected, Avery Evans’ design continued to stand out. The design was simple but very well done. She did a separate page for the hood design alone, which no one else had done.

All designs were given to HPD’s administration and after some deliberation, Avery’s was the clear and unanimous choice. When Avery’s mom was contacted about her winning, she was pleased but not surprised. Avery was announced the winner in her classroom at Herriman Elementary. The class was excited and Avery handled it with pride and humility.

She was able to ride in the parade during Fort Herriman Towne Days as the design winner. Avery, quiet but confident, came home with the blank design paper, and told her mother that she was going to win. Being the supportive parent, she agreed, but knew Avery faced tough odds. But Avery was right. She not only won, she was a step above. Congratulations, Avery!

To all the fifth graders or future fifth graders, you better start thinking now because Avery has raised the bar!

Tami Moody

The Utah Public Information Officer Association recently awarded Herriman City PIO Tami Moody the 2019 Team Player of the year. Tami’s creativity and understanding of municipal government made her an invaluable partner to every department in the City. Her peers are eager to work with her, and welcome her perspective and clear vision of projects that are reviewed and discussed. Her thoughtful approach has brought about some of the biggest improvements in City projects, including the City budget. Tami’s department continues to innovate, and she is the definition of a team player.

There are lots of components to a deck. Check them regularly to ensure they’re safe. If you suspect your deck is unsafe in any way, call a professional to come check it out. If you replace, add, or repair your deck, keep in mind that decks more than 30” above the ground require a permit and inspections. For more information, visit herriman.org/building/decks.
Herriman Youth Council had a busy fall season! In late September, they harvested a little more than 250 pounds of tomatoes, chili peppers, watermelon, and squash from their community garden plot, bringing their total donation of produce to 625 pounds. They partnered with St. Andrews, who delivers the food to people in need within our community. The Youth Council also participated in their second highway cleanup of Mountain View Corridor, where they spent multiple hours filling over 20 bags of trash! The Council has adopted the stretch of Mountain View Corridor between 11800 South and 13400 South.

They recently helped out with this year’s Herriman Howl, which was Area 51 themed. The Council dressed up as Men In Black and other really fun costumes. This is such a fun event that Herriman City puts on that continues to grow each year. Everyone had a great time!

The Youth Council is working hard to organize a new program for our community that will help residents who don’t speak English learn the language. They hope this will help bring the community closer by bringing people together in a group setting with a common goal. They are looking for volunteers to help make this program successful. If you or someone you know is willing to help in this endeavor, please email info@herriman.org.

November has been declared Pancreatic Cancer Awareness Month in Utah by Gov. Gary Herbert

Auto Pay  eBill  Equal Pay

Paying your Herriman City utility bill has never been easier.
