FOR IMMEDIATE RELEASE

Wasatch Front Waste Offers Green Waste Collection

Salt Lake County, UT – The coming of spring brings warmer weather, and the return of gardening and yardwork. Wasatch Front Waste & Recycling District (WFWRD) offers weekly curbside green waste collections as a subscription service to the residents in the District.

“Green waste collections are being requested by an increasing number of our customers,” says WFWRD Executive Director, Pam Roberts. “We are excited to offer this additional service to help divert green waste away from the landfill to be used for better reusable options such as compost.”

The Green Waste Program is optional and by subscription only for an annual fee of $114, and a one-time $60 startup fee, which pays for the green can and delivery. For residents paying for a second black waste can that they use for green waste, the Green Waste Program offers a more economical option. Green Waste collections are from mid-March through mid-December. The 2019, collections begin on March 18th.

In 2018, this program helped to divert 3,133 tons of green waste away from the landfills and was used for composting.

Residents interested in signing up for the Green Waste Program, or who want additional information, can visit https://wasatchfrontwaste.org/green-waste-collection/, or call WFWRD at (385) 468-6325.

WFWRD proudly serves the cities of Cottonwood Heights, Herriman, Holladay, Millcreek, Taylorsville, portions of Murray and Sandy; the Metro Townships of Copperton, Emigration, Kearns, Magna and White City; and the unincorporated areas of Salt Lake County.
